FINLAY MINERALS LTD.

Notes to the Interim Financial Statements

FOR THE QUARTER ENDED JUNE 30, 2018

All values expressed in Canadian dollars

1) NATURE AND CONTINUANCE OF OPERATIONS

The Company was incorporated under the Business Corporations Act (British Columbia) and its principal business activity is the acquisition and exploration of resource properties. The properties of the Company are without a known economically feasible ore body. The exploration programs undertaken and proposed constitute an exploratory search. There is no assurance that the Company will be successful in its search. The business of exploring for minerals and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, and to construct mining and processing facilities at a particular site. It is not possible to ensure that the current exploration programs planned by the Company will result in a profitable commercial mining operation.

Although the Company has taken steps to verify title to resource properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and noncompliance with regulatory requirements.

These financial statements have been prepared on a going-concern basis, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Several adverse conditions cast substantial doubt on the validity of this assumption. The Company has incurred operating losses since inception with a net loss for the six months ended June 30, 2018 of \$46,839, has limited financial resources, no source of operating cash flow, and no assurances that sufficient funding, including adequate financing, will be available to conduct further exploration and development of its mineral property projects.

The application of the going-concern concept is dependent upon the Company's ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. These financial statements do not give effect to any adjustments that might be required should the Company be unable to continue as a going-concern and therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts differing from those reflected in the financial statements.

Management plans to continue to pursue equity or debt financing to support operations. Management believes this plan will be sufficient to meet the Company's liabilities and commitments as they become payable over the next twelve months. There can be no assurance that management's plan will be successful. Failure to maintain the support of creditors and obtain additional external equity financing will cause the Company to curtail operations and the Company's ability to continue as a going-concern will be impaired. The outcome of these matters cannot be predicted at this time.

2) SIGNIFICANT ACCOUNTING POLICIES

a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. Accordingly, these Financial Statements do not include all of the information and footnotes required by IFRS for complete financial statements for year-end reporting purposes. These financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS as issued by the IASB.

FINLAY MINERALS LTD.

Notes to the Interim Financial Statements

FOR THE QUARTER ENDED JUNE 30, 2018

All values expressed in Canadian dollars

2) SIGNIFICANT ACCOUNTING POLICIES *(continued)*

The accounting policies applied by the Company in these financial statements are the same as those applied by the Company in its most recent annual financial statements for the year ended December 31, 2017.

b) Critical accounting estimates and judgements

- Impairment

The Company considers both external and internal sources of information in assessing whether there are any indicators that mineral interests are impaired. External sources of information include changes in the market, and the economic and legal environment in which the Company operates. Internal sources of information include the manner in which mineral interests are being used or are expected to be used. Management has assessed impairment indicators on the Company's mineral interests and has concluded that no impairment indicators existed as of June 30, 2018.

c) Significant accounting policies

These interim financial statements have been prepared using the same accounting policies and methods of computation as the annual financial statements of the Company for the year ended December 31, 2017. The disclosure contained in these interim financial statements does not include all the requirements in IAS 1 Presentation of Financial Statements ("IAS 1"). Accordingly these interim financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2017.

There are no other IFRS or IFRIC interpretations that are not yet effective that are expected to have a material impact on the Company.

3) EXPLORATION AND EVALUATION EXPENDITURES

Omineca Mining Division British Columbia

Silver Hope Claims

The Company has a 100% interest in 30 mineral tenures, eight of which are subject to a 1½% Net Smelter Returns royalty ("NSR"), and were acquired during 2006 by the issue of two million common shares. One half of the NSR (3/4 %) is purchasable prior to a production decision for one million dollars.

Atty and Pil-Gold Claims

The Company has a 100% interest in 52 mineral tenures (formerly 376 mineral claim units) of which 23 mineral claims were acquired from a private company controlled by a director of the Company with consideration for the issuance to that private company of nine million common shares (post subdivision) and a 3% NSR. The Company is also obligated to issue a further two million shares to this private company when the property is put into commercial production and may also, prior to that date, purchase a 1½ % NSR (½ of the 3% NSR) for two million dollars.

On March 1, 2018, the Company entered into an option agreement (the "OA") with Serengeti Resources Inc. ("Serengeti") and Electrum Resource Corp. (the "RH") to (i) grant Serengeti the exclusive right and option to acquire a 100% interest in and to the ATTY claims and (ii) to provide for the amendment of certain terms of the purchase agreement entered into between the Company and the RH dated as of July 29, 1999 (the "PA"). On execution of the OA, Serengeti paid \$25,000 to the Company. To exercise the option, Serengeti must, within 8 years of exchange approval and in accordance with the specific schedules:

- Pay \$975,000 by issuing shares, paying cash or a combination thereof, with the first \$25,000 being paid on exchange approval;

FINLAY MINERALS LTD.

Notes to the Interim Financial Statements

FOR THE QUARTER ENDED JUNE 30, 2018

All values expressed in Canadian dollars

3) EXPLORATION AND EVALUATION EXPENDITURES *(continued)*

- Pay \$600,000 in cash; and
- Incur at least \$12 million in expenditures, with the first \$300,000 incurred on or before the first anniversary of exchange approval.

Pursuant to the OA, Serengeti was also granted the additional option whereby, upon its exercise, the PA will be amended by: (i) reducing the NSR payable from 3% to 1.5%, (ii) terminating the buydown right relating to the NSR and (iii) terminating certain provisions providing for additional consideration and area of mutual interest rights. In order to exercise the additional option, Serengeti must, within 8 years of exchange approval and in accordance with the specified payment schedule, pay \$250,000 to each of the Company and RH by issuing shares, paying cash or a combination thereof. Following the exercise of the option and the additional option, if Serengeti makes an ATTY Project Production Decision (as defined in the OA), it must make a payment, in cash or shares at its option, to the RH equal to the lesser of the market value of 500,000 of its shares and \$1 million.

The OA received exchange approval on April 9, 2018.

On March 1, 2018, the Company and the RH entered into an amending agreement to amend the PA so that (i) certain clauses only apply to the ATTY claims and not the Pil claims; and (ii) to provide for a separate royalty agreement between the Company and the RH relating to the Pil claims. The PA was amended as follows:

- As additional consideration for the original purchase, the Company will issue 500,000 shares of the Company to the RH immediately following an ATTY Project Production Decision (as defined in the OA); and
- Prior to an ATTY Project Production Decision (as defined in the OA), the Company may, at its sole discretion, purchase one half (1.5%) of the NSR from RH by paying \$1 million.

On March 1, 2018, the Company and the RH entered into a royalty agreement (the "RA") in respect of the Pil claims. The RA incorporates the mineral claims acquired under the Purchase Agreement with the RH dated as of October 1, 2001, as well as the rights and interest pertaining to the Pil claims, into the RA, and terminates the 2001 Purchase Agreement. As additional consideration for the purchase of the Pil claims, the Company:

- Will issue 1 million shares of the Company to RH immediately following a Pil Project Production Decision (as defined in the RA);
- Will pay an NSR of 3% to the RH; and
- May, at its sole discretion, and prior to a Pil Project Production Decision, purchase one half (1.5%) of the NSR from RH by paying \$2 million.

1. On April 10, 2018 the Company extended 2,928,572 warrants with an original term of 24 months to 48 months; the new expiry date of these warrants is now April 12, 2020.

7) CAPITAL MANAGEMENT

The Company's objectives for the management of capital are to safeguard the Company's ability to continue as a going-concern, including the preservation of capital, and to achieve reasonable returns on invested cash after satisfying the objective of preserving capital.

The Company considers its cash and cash equivalents to be its manageable capital. The Company's policy is to maintain sufficient cash and deposit balances to cover operating and exploration costs over a reasonable future period. The Company accesses capital markets as necessary and may also acquire additional funds where advantageous circumstances arise.

The Company currently has no externally-imposed capital requirements.

8) COMMITMENTS

As at June 30, 2018 the Company must incur an additional \$135,618 in qualifying flow-through expenditures prior to December 31, 2018 pursuant to its renunciation to investors in the December, 2017 flow-through financing. Since June 30, 2018 the corporation has incurred additional qualifying flow-through expenditures of \$40,598 to August 29, 2018.
